Задание 5.

- 1) В тексте идет речь о движении людей. Сторонники движения были против автоматизации и механизации труда. /об
- 2) Тростниковое движение появилось после роста безработицы, вызванного сокращением рабочих мест после механизации производства. Другой причиной является некомпетентность новой рабочей силы. Несмотря на то, что работа стала проще, многим рабочим приходилось выполнять дополнительные и те же действия (например, касаться на кнопку), что относительно вышло на психическое состояние людей. /об
- 3) Я считаю, что подобные движения возможны в современном мире. Появление Искусственного Интеллекта, компьютеризации и автоматизации производства пугают людей: Многие боятся, что компьютеры заменят работу, а многие боятся, что ИИ сместит человека в недалеком будущем. Эти страхи могут подтолкнуть людей к созданию подобных людских движений. /об
